

Portfolio Date: 30/11/2018

Investment Strategy

The Ostrica EU Government Bond Fund predominantly invests in government bonds issued by Eurozone based countries. Ostrica uses forward looking models to calculate the probability of interest rate rises across the yield curve and actively manages the duration of the fund accordingly. We monitor the various country CDS's continuously to take advantage of the spreads between Northern & Southern European countries. Using these principles of strong risk management, the fund provides a very stable investment in EU government bonds.
