

### Investment Strategy

The Ostrica Inflation Investments Fund predominantly invests in inflation linked bonds issued by Eurozone based countries. Ostrica uses forward looking models to calculate the probability of interest rate rises across the yield curve and actively manages the duration of the fund accordingly. We monitor the various country CDS's continuously to take advantage of the spreads between Northern & Southern European countries. Using these principles of strong risk management, the fund provides a very stable investment in inflation investments.

### Asset Allocation

### Top 10 Holdings

	Portfolio Weighting %
Spain (Kingdom of)	19,38
France (Republic Of)	12,21
Italy (Republic Of)	10,94
